

"In 2023, BoardSafe built projects throughout the US - from Maine to California and everywhere in between - all thanks to our hardworking team and industry partners. The message we hear from our customers is clear: no matter where you are, building universal access to our parks and waterways is a top priority for communities. **2024 is going to be another exciting year for BoardSafe Docks.**"

Tom Warchol, *New Business Development & Strategy*

Growth In 2023

2023 was a successful year for BoardSafe Docks – not only for our team but also for the engineers, architects, and the state, and municipal clients we partnered with.

Together, BoardSafe has made communities more accessible with our adaptive kayak launches, accessible fishing piers, gangways, and pedestrian bridges that help to connect and provide access for all abilities to the great outdoors.

A Look Back...

Before we navigate into 2024, let's look back at some of our most memorable moments of this year and review what we've accomplished. As a result of our growing partnerships, BoardSafe leads the market with innovative and individualized solutions that create accessibility to outdoor recreation.

2023 Impact:

- We've installed over **100 BoardSafe Adaptive Kayak Launches** nationwide that provide accessibility and improve the user experience for paddlers who may require additional features to access the water safely and with greater ease.
- BoardSafe designed, engineered, and fabricated over **1400+ feet** of aluminum gangways which is equivalent to the height of the Empire State Building.... from the ground to its tip!
- We've added value to communities across the USA who have invested in our water accessibility products. **[Here is Lake Chaminwood's Story - Accessibility Is Not One-Size-Fits-All.](#)**
- BoardSafe's growth has led to the following new additions to our team in 2023: Kelly Beals, Business Development; Brian Caldwell, Operations Manager; Matthew Boyer, Shop Welder; Kevin Jones, Blue Water Docks, Regional Installer.
- As the BoardSafe team expanded, so did our outreach. We continued our mission to educate others about the need for and value of accessible outdoor recreation sites. We valued the opportunities to sponsor and speak at these 2023 conferences and trade shows: States Organization for Boating Access (SOBA), Tennessee Riverline, Ohio RiverWay Summit, Canal Society of New York State, ASLA PA-DE, NY State Recreation and Park Society. Our message about the benefits of universal access and the value it adds to communities is being heard! **[Read more here: 6 Economic Benefits of Adding an Accessible-Adaptive Kayak Launch.](#)**
- BoardSafe received our Tennessee Contractor's License which allows us to complete field installations throughout the state.

Upcoming Events in 2024:

- **New Jersey ASLA, Ocean City, NJ** (January 28th – 30th)
- **Tennessee RiverLine, Pickwick Dam, TN** (February 25th – 28th)
- **Fox River Summit in Burlington, WI** (March 15th)
